91 % (2010-2012)
Sri Sai Inter College, Barabanki

▢ Work Experiece **(5.8 years)**

SDE-3, Shyftlabs - (Dec. 2023 – Present)
Converted a conventional project into a TDD environment by integrating Jenkins, GitHub Actions, Tox, and pytest etc. I spearheaded the migration from PostgreSQL to SQLite for testing purposes, Through meticulous testing, I achieved a remarkable 95% test coverage, detecting and resolving over 50 critical bugs.

SDE-3, ORNAZ - (Apr. 2022 – Nov. 2023)
Working as Full Stack Developer, handling all the tech things includes frontend, backend, AWS server management, networking etc along with Team.

SDE-2, ORNAZ - (Apr. 2021 – Apr. 2022)
As a Software Developer, I take care of all the backend(Django, PSQL) and frontend(React, AngularJs, jQuery).

SDE-1, ORNAZ - (Apr. 2020 – Apr. 2021)
As a Software Developer, I migrated whole Website from Magento with the backend(Django, PSQL) and frontend(React, jQuery)

Frontend Engineer, ORNAZ - (Dec. 2018 – Apr. 2020)
As a Frontend Engineer, I Migrated main pages(HomePage, Catalog, pdp) from Magento to Django.

Software Intern, ORNAZ - (Jun. 2018 – Nov. 2018)
Started Development of a Brand New Ecommerce Website using Django, with database PSQL, and HTML, CSS as frontend.

Software Intern, BHEL - (Feb. 2018 – Mar. 2018)
Developed a Website SkillShare, a discussion panel for learn and share knowledge.

▢ Project (ORNAZ)

An E-Commerce Web-Application(mobile) (ornaz.com) - (June. 2021 – Present)
Started development in June 2021, Developed a fully funtional React-Native app, which is being used since Jan. 2022, as in Native apps and Mobile-Web also.

An E-Commerce Web-Application (ornaz.com) - (Nov. 2019 – Present)
Started development in June 2019, which is an E-Commerce web app which has catalog, pdp with 360 degree product view, cart, checkout payment gateway and Qwick-Cilver-WALLET.

A Operation Management tool for staff (ornaz.com/dashboard) - (Jan. 2020 – Present)
Developed whole eco-system at ornaz, from place-order to order-close , every requirement is being handle by this dashboard app.

Diamond Compare App (ornaz.com/diamond-compare) - (Oct. 2020 - Oct. 2020)
Developed a web app where you can check and compare how a diamond looks alongs with diffrent skins, diamond shape, size, settings.

Virtual Trial Room (ornaz.com/realtime-tryon) - (Sep. 2020 - Sep. 2020)
Developed a Realtime-3D-virtual trial room for rings using google **mediapipe-ar-kit**.(**Android App, WebApp** also.)

Try-On-Hand app for Rings (ornaz.com/try-on-hand) - (6 Feb. 2020 - 6 Feb. 2020)
A mobile web app, where we can check how a rings looks on your own hand, and click photos and share to others etc.

Price Calculator for Jewellery products (Estimator) - (6 Feb. 2020 - 6 Feb. 2020)
A platform to calculate prices for any type of jewelry with their raw specs.

▢ My Side Projects
